## Editor's Letter

As I write this letter, holding the title of Editor-In-Chief while StuTalk celebrates 15 years of its glory and honor, I feel joy, excitement, and nervousness, a blend of emotions that reminds me of the day I was recruited. At the same time, I take pride in being a part of this bequest as we did not just make it to yet another edition, but we made it to a milestone that we take the utmost gratification in.

It is only fair to bestow the applause to all the previous teams who worked hard to let us witness StuTalk as it is today, since its establishment. As we mark the crystal year, allow me the opportunity to take you through it all, in a glimpse; 16 Newsletters, 15 Volumes, 25 Magazines in total, a Digital platform, a Flagship event, a motto, and a vow to be the voice of thousands of young minds of this esteemed institution, and much more than what could be said in mere words!

Let us raise a toast not just to the past but to the team that made this historical edition, which shall remain in the archives of our memories. As we look into the future that is as bright as ever, as we walk into this new phase, we hope that may we have the strength, courage, and opportunity to serve as the core voice of VBITians.

# TABLE OF

# CONTENTS

## **EB Recommends** 8-9

Hone your skills in a path we guide you!

## **15 Years of StuTalk** 12-13

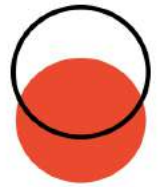

2007 - still on a voyage to being the best at what we do!

## **Coming soon...** 23

Take a look at the major events lined up for June!

# ORIENTATION

## DAY

### INDUCTION DAY

**29<sup>th</sup> November 2021**

An induction program was hosted to welcome the freshmen of VBIT on 29th November 2021. The program was conducted to acquaint the first-year students and parents with diverse aspects of the college. The session was graced by K. Raja Shekhar, Deputy Director-General of the National Informatics Center, who delivered notable insights on life as a college student. This program served as a platform for the freshmen to blend in with the college and their stride towards the start of an important phase in their lives.

### DAY<sup>1</sup>

An inspirational lecture on "Aspirations and Concerns – Holistic Perspective" was addressed by Mr. Raghu Dutt, Motivational Speaker, followed by a seminar on "Creating a Roadmap of Success" by Richa Kulkarni, a Civils'21 top scorer.

A talk on "Self & Time Management" was curated by Dr. P. V. S. Srinivas, Principal, VBIT. The second session commenced with an oration on "VBIT R21 Regulations – Engineering Education after NEP – 2020" by Dr. S. Krishna Rao, Director of Academic Planning.

Students were motivated on "Self-Awareness, SWOT & Personality Development" and "Psychological Health & Well-being" by V. Bhanu Prakash and Ms. P. Madurima Reddy, MD, Psychiatrist & Psychotherapist, respectively.

Seminars on "Physical Well-being, Health & Nutrition" and "Yoga for a Better Life" were headed by Dr. Sharmila, and Mr. Ram Jayaram, IHEC, BITS, Hyd, respectively. An elaborated session on "VAPs, Entrepreneurship & Start-ups" by Mr. G. Anil Kumar, Director, IIIC.

It commenced with an insightful talk on "Relationships & Interaction – Ragging & Peer Pressure" by Dr. K. Madhavi Reddy, NIT, Warangal. It concluded with a valedictory ceremony by Virinchi - Cultural Club.

# ACHIEVEMENTS

- Team VBIT, Volleyball (Men) secured 1<sup>st</sup> position at State-Level Volleyball Tournament conducted by BVRIT.
- At the State-Level Volleyball tournament hosted by MCRET, VBIT Men's Volleyball team procured first place.
- Team VBIT, Volleyball (Women) was placed 2<sup>nd</sup> at the State-Level Women Volleyball Tournament, conducted by BVRIT.
- In a National level Volleyball Championship Tournament for Women, Team VBIT bagged 1<sup>st</sup> place, held by KPRIT.

XXX

**COLLEGE & STUDENT**

Dr. P. V. S. Srinivas, Principal, VBIT was honored with the prestigious 'Seva Rathna Award' in Engineering Education at the Institute of Engineers. The award was presented by Justice Sri G. Chandraiah, Chairman, Human Rights Commission, Government of Telangana.

# INDUSTRY

## COLLABORATIONS

**MoU with  
EduSkills**

**MoU with  
NIT Warangal**

With the world advancing at every step towards the future, VBIT has signed an MoU with Mr. Shubajith Jagdev, Co - founder EduSkills, in collaboration with AICTE Internships. This step was initiated to cognize the students about the latest developments in the engineering industry.

The students are allowed to choose an emerging technology and do an internship through the EduSkills portal and get certified in the chosen course.

This aids the students with the existing value-added programs to be industry ready and face the competitive world with the knowledge of current trends.

**EduSkills**

# EVENTS

**17<sup>th</sup> DECEMBER 2021**

In association with LIONS Club, Hyderabad East, a blood donation camp was successfully conducted on the college premises. - Dyuthi, The NSS Unit of VBIT.

**20<sup>th</sup> DECEMBER 2021**

The launching ceremony of "Honours & Minor Degree Programmes" for Academic Year 2021-22 was graced by the chief guest, Dr. V. Kamakshi Prasad, Prof. of CSE, Chairman BoS & Former Director of Evaluation JNTUH, Hyd.

**14<sup>th</sup> MARCH 2021**

Team Z. A. R. C conducted a boot camp to help students get acquainted with hackathons and the evolving competitive world.

**17<sup>th</sup> DECEMBER 2021**

A two-day workshop was conducted on "Machine Learning and its Applications using Python" for 3rd year CSE students and was presented by Dr. Venkateswara Rao Kagita and Dr. Bala Prakasha Rao, NIT Warangal - Dept. of CSE.

**17<sup>th</sup> NOVEMBER 2021**

A seminar on "Emerging Trends in Artificial Intelligence & Machine Learning" was delivered by B. Harivendrana Chary, CEO & Co-Founder at Techieyan Tech. - Dept. of CSM.

**23<sup>rd</sup> NOVEMBER 2021**

An awareness session on "Cyber Crimes and Ethical Hacking" was headed by Mr. Kathikeya Kumar, Cyber Security Advisor, Senior HR, Consultant, Analytics Mentor, Motivational Speaker, K3 Consultancy. - Dept. of IT & CSE.

**6<sup>th</sup> DECEMBER 2021**

An industrial site visit to "Pavani RMC Plant" on "Manufacture of Ready - Mix Concrete" for 3rd-year students was conducted - Dept. of CE.

**4<sup>th</sup> JANUARY 2022**

A public speaking competition in collaboration with JCI Hyderabad Samskriti, "Global Tree JCI Star Speaker 2022 Prelims" was organised.

**5<sup>th</sup> JANUARY 2022**

A lecture on "Business Technocrats in Industry 4.0" was addressed by Dr. K. Sharath Babu, B. Tech, MBA, M. Phil, Ph.D., Prof. & HoD of MBA, VBIT - Dept. of CSB.

# GALORE

**15<sup>th</sup> SEPTEMBER 2021**

The plan of action for all the forums for the academic year 2021-22 was presented. The session was addressed by Dr. Swarupa, Coordinator, Student Affairs, Dr. CH. S. L. N. Sridhar, Director of Student Affairs, Dr. G. Amarendar Rao, Director of PG Studies, and Dr. S. Krishna Rao, Director of Academic

**17<sup>th</sup> DECEMBER 2021**

A two-day workshop was conducted on "Machine Learning and its Applications using Python" for 3rd year CSE students and was presented by Dr. Venkateswara Rao Kagita and Dr. Bala Prakasha Rao, NIT Warangal - Dept. of CSE.

**21<sup>st</sup> SEPTEMBER 2021**

A lecture on "Career Guidance" for 4th-year students was headed by Mr. S. Rakesh Reddy, Asst. Engineer, CESS Siricilla(NPDCL), Telangana. - Dept. of EEE.

**25<sup>th</sup> NOVEMBER 2021**

In association with SAEINDIA, "MOTIF - The Design Competition" was conducted for the 3rd & 4th years of Mechanical and Civil Departments. - Dept. of ME.

**27<sup>th</sup> OCTOBER 2021**

A technical seminar on "Emerging Trends in Thermal Engineering" was addressed by Dr. G. Amarendar Rao, Professor, and Director, PG studies, VBIT - Dept. of ME.

**15<sup>th</sup> DECEMBER 2021**

A webinar on "Data Analytics" was directed by Dr. Monika Arora, Associate Prof., Apeejay School of Management Dwarka, New Delhi - Dept. of MBA.

**22<sup>nd</sup> JANUARY 2022**

A webinar on "Technological Applications of Electromagnetism" was presented by Mr. B. Surendra Reddy, M.Tech, IIT Bombay - Dept. of ECE.

**16<sup>th</sup> MARCH 2022**

A seminar on "Futuristic Systems - Paradigm Shift" was discussed by Prof. Chillarige Raghavendra Rao, Senior Prof., Dept. of Computer & Information Sciences, HCU - Dept. of CSM & CSB.

**11<sup>th</sup> APRIL 2022**

An event "Inauguration of Abhedya Club" was graced by Shri Prasad Patibandla, Director(R&D), CRCIDF, New Delhi - Dept. of CSC.

# EDITORIAL BOARD RECOMMENDS

With summer hitting up and it's almost time for a productive vacation that will expand your knowledge and fill your pockets. This edition, with EB recommends, we present you some of the best in-demand fields which you can learn and get an internship to gain experience to have your way with the holidays!

## Content Writing

Content writing is diverse. Hence, has a distinguishable number of options. The creative and subtle way of gaining trust is truly remarkable and not a common occurrence. It is never too late to start and with diversity comes a variety of courses. Feel free to choose between courses like **"Technical Writing"** by Coursera and **"Business Writing"** by Google.

Marketing has a direct impact on the success of a company. Since the world is leaning onto digital, digital marketing lies on the higher end of the importance spectrum. There is an amazing course offered by **Google** named **"Digital Marketing"**. The students who are passionate about spreading the word and advertising with all of their creativity should take their stride in this field.

## Digital Marketing

## Web Development

Websites have a say in our routine, be it directly or indirectly. The demand for it is self-explanatory. Companies are in a daily hunt of web developers and it also feels great to have your own website. **FreeCodeCamp, Udemy, and Coursera** offer some of the best beginner to expert courses for students, with a certificate of completion to add to your resume.

Everyone appreciates a good design and pays for a great one. This is what people are going to be acquainted with before buying your product. One point that stands out is the creative environments and the variety of choices you are presented with. One of the highest-rated courses is **"Graphic Design Specialisation"** offered by CalArts in Coursera.

## Graphic Designing

With some of the in-demand skills in your pocket and certifications to prove the same, it is now time to put that to a real-time use. Here's a quick peek into some of the most popular ways to find internships in today's world!

## Linked in

LinkedIn has become a hub of opportunities for people around the world. Create your profile with all the required details. Join relevant groups that align your interests and build your connections. Follow the company pages and be updated on the posts of internships. Apply to the ones you're interested in and remember to keep updating your profile for better opportunities.

## Internshala

Internshala is a great platform for students who want to earn and upskill while also studying. Start by creating a profile on Internshala, and upload your resume by adding all your current qualifications and skills. You can select the most favorable internships as per your need from a wide range of offers and apply to them. After reviewing your resume, the company will contact you through the same app/website for further procedures.

## Cold Email

A cold email is sent to an individual or a company to start a relationship. By cold emailing, you can directly interact with the company of your desire about your internship. Make sure to personalize your mail and specify the company you are interested in. Cold emails must be short and precise. Pique their interest and engage their attention on why to hire you. End your mail with a call to action. Also, before you cold email a company, make sure that they have internship opportunities.

# SUMMER INTERNSHIPS

# 15 YEAR'S

Volume 1 | Issue 1  
September 2007

Newsletters

It all began with this newsletter published by Sujoy Ghosh and his team that marked the prime stride for the future of the official magazine producing forum of VBIT.

Over the course of the next four years, StuTalk issued diverse newsletters that made notable contributions and presented the introspection of the college.

While the world was in the shadow of the pandemic, StuTalk chose to be a beacon of hope by going digital with their official website "stutalk.in". A platform that allows the students to spread their articulate voices through blogs.

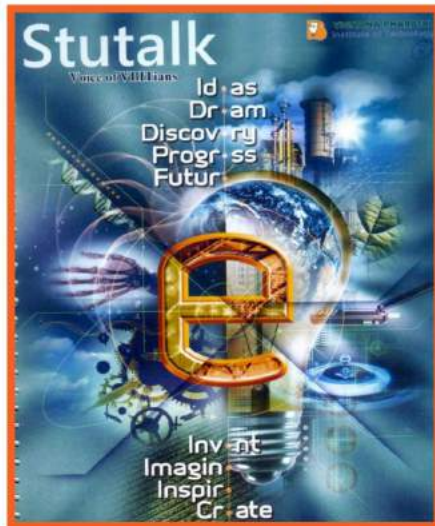

Website - July 30th, 2020

Volume 5 | Issue 2  
January 26, 2012

Magazines

It all began with this newsletter published by Sujoy Ghosh and his team that marked the prime stride for the future of the official magazine producing forum of VBIT.

A benchmark was set for each magazine produced, StuTalk has proudly released 25 magazines and if you are reading this, you are witnessing what is the 26th magazine of StuTalk!

Blogs

With the launch of the website, every month, StuTalk publishes student blogs to express their perspectives and wandering thoughts on diverse topics.

## C FOR ERROR

'C' for Error is an intra-college event organized by the Computer Society under IEEE - VBIT SB. The event aims to engage the students in a coding competition that acquaints them with primitive C language. It was conducted on 30<sup>th</sup> October 2022. The participants were given a variety of challenges to complete that tested their debugging and objective analytical skills.

## ML HACKATHON

This event was conducted by IEEE - VBIT SB in association with ABTechVille on the 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> March 2022. The 24-hour hackathon was organized after the one-day workshop in which students were briefed on the basics of Python and were also given a glimpse into the world of Machine Learning. The participants were guided on the ideation of solutions to real-world problems during the hackathon.

# IEEE

## #IWD2022

WiE Affinity Group under IEEE - VBIT SB organized this event on 8<sup>th</sup> March 2022. It was an intra-college event based on International Women's Day with the theme 'Break the Bias'. The event was graced by Ms. Sailaja Cheruvu, a self-made entrepreneur. The event honoured women around the world for their contributions to society. It elevated the narrative and activities through painting and Open mic competitions.

## WI-FI CONTROLLED ROBOT

This event by Power and Energy Society chapter IEEE - VBIT SB, sponsored by AICTE was conducted on the 7<sup>th</sup>, 8<sup>th</sup> and 9<sup>th</sup> of December 2021. The workshop provided an opportunity for students to gain foundational knowledge on Arduino and acquire practical knowledge through hands-on sessions.

## TECH-EXPO

It was an event initiated by Space Sciences and Technology wing, under IETE ISF - VBIT on 17<sup>th</sup> and 18<sup>th</sup> December 2021. The students were given an opportunity to visit the "Midhani and Defence Products Exhibition", BDL, Kanchan Bagh, where they witnessed various products and equipment used by the defence sector and also understood the manufacturing of missiles

# IETE

## AVYANNA

In association with Unnat Bharat Abhiyan and Women Protection Cell VBIT, this event was organized on the occasion of International Women's Day. The event acknowledged the female staff of VBIT and expressed gratitude for their contribution to the college.

## PCB DESIGN WORKSHOP

This 3-day workshop was held 23<sup>rd</sup>, 24<sup>th</sup>, and 25<sup>th</sup> of November 2021. It aided the students to understand and familiarize themselves with different tools and software used to design their own PCB. The participants gained in-depth knowledge of the schematics of PCBs through hands-on sessions.

# CODECRAFT 3.0

This flagship event of coding.Studio() was conducted on 25<sup>th</sup> & 26<sup>th</sup> October 2022. It aims to foster competitive programming culture in the college. The first day was an introductory session followed by the main contest on the following day where the participants were divided into 10 teams competing on 12 problems hosted on the CodeChef platform.

## CHRONOS HACK

The flagship event of EpsilonPi, The Machine Learning Club of VBIT, was held on the 27<sup>th</sup> and 28<sup>th</sup> of October, 2021. This 24-hour hackathon was followed by a three-day boot camp that the forum held to induce a sense of hackathon among the participants. With over 55 teams, the judges witnessed diverse and ingenious solutions to real-time problems. The winners were announced and bestowed with prizes worth 500 USD.

On the occasion of National Mathematics Day, this event by Ganith was conducted to augment the logical thinking and reasoning ability of the students. The theme of the event was based on a popular web series, "Squid Games". The competition consisted of two rounds namely, Squid Game and Bridge Game. The event focused on enhancing the mathematical skills and team coordination of the students under pressure.

YUKTHI

# BAILS OUT 2.0

This fundraiser event by Street Cause - VBIT was conducted on the 23<sup>rd</sup> and 24<sup>th</sup> of October 2021. It was a Box Cricket Tournament with the motto, 'Play with Passion, Win for a Cause' at Backfield Sports, Nagole. The main aim of the event was to retain fitness and rejoice in the fervour of sports among the students. The participants played with compassion towards helping people and as a pleasure to let out the effects of lockdown.

## NIRVIGHNA

This event, organized by Eco Club on 9<sup>th</sup> October 2022 aimed to impart awareness about the adverse effects of the Plaster of Paris idols. The team sold eco-friendly Ganesh idols to propagate a perception of saving nature while also celebrating the festival. A competition to design a model of the Ganesh idol using designing software was also conducted on the same day.

## CHITRIKA

Chitrika - VBIT conducted this Photography Exhibition cum Competition on 21<sup>st</sup> December 2021, exclusively for the first and second-year students. The event provided a deeper and detailed knowledge to the students on the various aspects of photography. It bestowed the students with a platform to exhibit their talent and showcase their best clicks.

# VBIT MUN 2.0

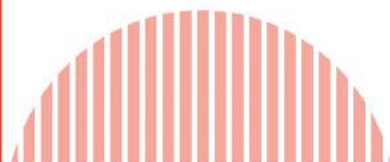

This three-day program was hosted at Green Park Hotel on the 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> December 2021. The event was instructed by Mr. P. V. Narsimha and directed by Dr. K. Shirish Kumar. Participants representing a country collaborated with other delegates from different countries to address a problem. During the event, various debates and discussions were carried out, a ceremony speech was presented by Mr. Siddharth Praneeth, the Secretary-General of VBITMUN 2.0.

# VIHANG

A two-day workshop on drone was held by Robotics Club on 23<sup>rd</sup> and 24<sup>th</sup> December, 2021. The event was headed by Mr. Sanjay Kumar Chepuri, Managing Director, CEO - Sansah Innovations. The participants gained an in-depth knowledge on drones with practical sessions.

# THE NEXT STEP

Life is nothing less of a roller coaster ride. If the past two years have taught me anything, then it is that life is the most uncertain thing in the world. While this has been my lesson, it's not the same for everyone. Not for those extended family members and neighbors who ask me what my "next step" is going to be.

Yes, I heard that question at least a dozen times in the past week and I'm not even half past my graduation. I'm still a long way to get that certificate in my hand and people are already worried about the next chapter of my life. While I'm still trying to figure out an offline life routine, I understand that the expectations for the next step are quite high.

There are a lot of options to choose from which are definitely not helping. While your parents secretly wish you to do something, your siblings expect you to do something else, and so do your friends, family, well-wishers, cousins, and everyone, though their intentions may be pure, they simply overrule what you truly want, with the reason "You are too young to make the right choice" and make the decision for you!

While this part stays aside, one of your friends is already preparing to write some entrance tests and to your surprise, some may have already done it. While one plans to take over the family business, the other works hard to land a job, while some are already interning with start-ups, getting the exposure.

When the expectations are high along with the pressure, I'm not sure what would make me happy or help me make the best choice.

Giving it a long thought would only make my head burn and a heavy intake of caffeine would only make some improvement. However, with the experience of the past two years where lives crumbled more than ever, I know being "happy" is my priority. Enjoying the little moments in my college life would make me happy. Not worrying about the future when you are just in the second or third year of college would make me happy. Reminiscing moments with all my well-wishers would make me happy, talking about my friends' dreams, and plans for the future and giving them a pat on the back would make me happy.

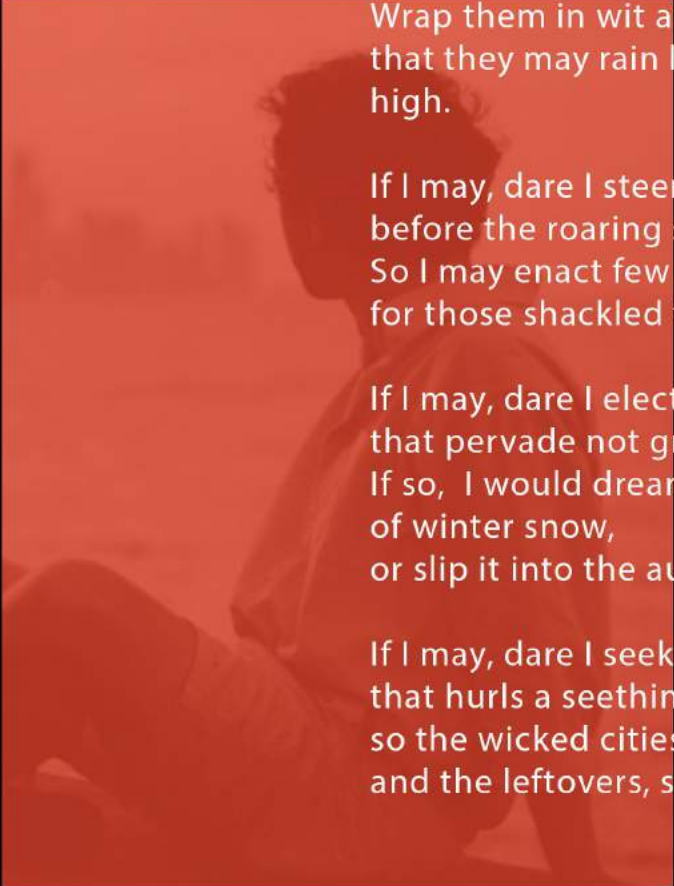

All of this, while working hard to keep up my grades, improve my knowledge, and skills, and explore the options would make me happier along with taking responsibility. I'm not sure what my next step is, but when I know it, I know I didn't waste my days worrying about it but rather enjoyed the process of making the choice of "next step" that I did.

**Kondam Supriya Reddy**

III IT A

# SEEKER'S HOME

If I may, dare I bind my stuttering pieces of compassion,  
whilst the desires of a rusting heart still stay pristine,  
Wrap them in wit and shoot out far into the placid sky,  
that they may rain love upon eyes that are staring into the  
high.

If I may, dare I steer free of a tiring trope  
before the roaring spirits of liberty are long put to sleep,  
So I may enact few chapters of hope  
for those shackled to misery, in a pit so odious and steep.

If I may, dare I elect noble dreams  
that pervade not grandiose but cure mortal maladies.  
If so, I would dream to cast healing beneath the blankets  
of winter snow,  
or slip it into the aura of a daylight's shadow.

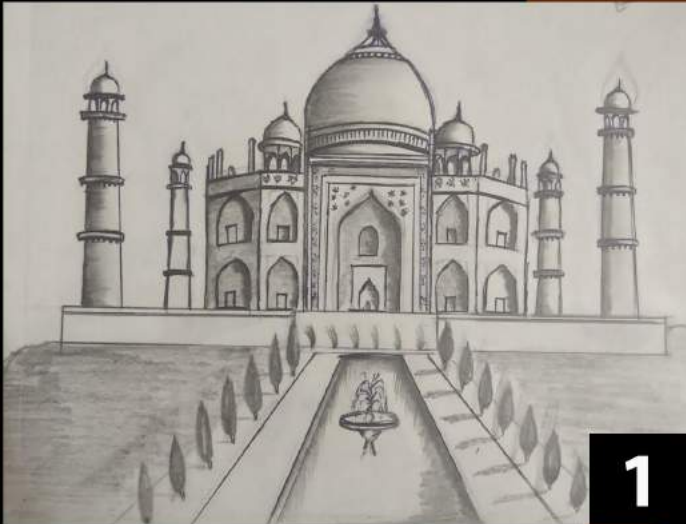

If I may, dare I seek a valiant purpose free of vanity,  
that hurls a seething tempest of humanity,  
so the wicked cities may crumble before the storm,  
and the leftovers, so be called Seeker's home.
